

AGPRO ANTI-FOAM 1410

DESCRIPTION:

AGPRO ANTI-FOAM 1410 is a water-dilutable, 10 percent active silicone emulsion that is designed to control foam in aqueous systems.

FIRST AID:

- If swallowed give a glass or two of water to dilute. Do not induce vomiting.
- If skin contact occurs, remove contaminated clothing and flush skin and hair with running water.
- If splashed in eyes, wash out immediately with water.

PRECAUTIONS:

Store in the closed original container in a cool, dry, well ventilated area out of direct sunlight and away from foodstuffs and drink containers.

Avoid skin contact and inhalation of spray mist.

Wash hands and exposed skin before meals and after work.

Triple rinse container and add residue to spray tank. Burn if circumstances especially wind direction permit. Otherwise bury in landfill.

Avoid contamination of any water supply with chemical or empty container.

HOW TO USE:

AMOUNT NEEDED:

AGPRO ANTI-FOAM 1410 works effectively in very low concentrations. One to 100 parts of active silicone per million parts water are sufficient to eliminate most foams. Begin trials at higher use levels (50mL of AGPRO ANTI-FOAM 1410 into 100L of water), then work down to the level of foam control desired.

ADDING THE ANTI-FOAM:

To produce optimal foam control, it is necessary to have the antifoam completely dispersed in the foaming medium. Follow these steps to achieve complete dispersion:

1. Agitate the product prior to use.
2. Pre-dilute with 3 to 10 parts of water to aid in dispersion. Add the antifoam to the water with slow mixing. Pre-diluted material should be used immediately. If the system can provide adequate agitation to disperse the antifoam, the antifoam emulsion may be added directly without pre-dilution being necessary.
3. Add the antifoam prior to the point where foaming occurs within the system, if possible.

CONDITIONS OF SALE:

The use of AGPRO ANTI-FOAM 140 being beyond the control of the manufacturer, no warranty expressed or implied is given by AGPRO NZ LTD regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and AGPRO NZ LTD accepts no responsibility for any consequence whatsoever resulting from the use of this product.
