

AGPRO WETTER PENETRANT

AGPRO WETTER PENETRANT is a highly concentrated non-ionic surfactant which dramatically improves the wetting, penetrating and spray adhesion characteristics of pesticides, particularly with waxy or hairy leaf surfaces or under dust covered and dry weather

SAFETY PRECAUTIONS

- Keep out of reach of children.
- Avoid contact with eyes and skin
- Do not inhale spray mist.
- Wash hands with soap and water after use.

APPLICATION RATES

AGPRO WETTER PENETRANT should be used at 25ml per 100 litre of spray mix unless an alternative recommendation is noted on

MIXING PROCEDURE

AGPRO WETTER PENETRANT should be slowly added to the partly filled spray tank and the tank agitated to ensure proper mixing. The remaining water should then be added with the hose.

COMPATIBILITY

Compatible with most herbicides, fungicides and insecticides, however its use with certain selective herbicides is recommended.

STORAGE AND DISPOSAL

Store in the closed, original container in a cool, dry, well ventilated area out of direct sunlight and away from foodstuffs and drink containers. Triple rinse empty containers adding the residue to the spray tank. Dispose of empty container by burial at an approved.

CONDITIONS OF SALE

The use of AGPRO WETTER PENETRANT being beyond the control of the manufacturer, no warranty expressed or implied is given by AGPRO NZ LTD regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and AGPRO NZ LTD accepts no responsibility for any consequence whatsoever.
